SUMMARY

I am a Computer Engineer passionate about Software Engineering, Web & Mobile App Development, UI/UX Design, Graphic Design and AI. Experienced in developing scalable web and mobile applications, intelligent software solutions, and AI powered applications. Strong foundation in algorithms, data structures, OOP and modern software architecture, with a commitment to building clean, efficient, and maintainable applications.

EDUCATION

Egypt-Japan University of Science and Technology (E-JUST) 2024 – Present
B.Sc. in Computer Science and Engineering

El Zahraa International Schools - American Department 2020 – 2023
High School Diploma, American Division

SKILLS

Technical Skills

- **Languages:** Python, JavaScript, TypeScript, C++, C, HTML, CSS
- **Web & Frameworks:** React.js, Next.js, Node.js, Express.js, Flask, Bootstrap, Tailwind CSS
- **Databases:** MySQL, MongoDB, PostgreSQL (Prisma ORM)
- **AI / Machine Learning:** PyTorch, LangChain, FAISS, Hugging Face Embeddings, Sentence Transformers, PyPDFLoader, Prompt Engineering
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming, REST API Design, Debugging & Testing
- **Tools:** Git/GitHub, VS Code, Android Studio

Soft Skills & Languages

- **Soft Skills:** Problem Solving, Team Collaboration, Communication, Adaptability, Continuous Learning, Time Management, Attention to Detail
- **Languages:** Arabic (Native), English (Fluent - EF SET Certified)

PROJECTS

Full-Stack Learning Management System (LMS) Jul 2026
Next.js 15 | Express.js | TypeScript | Prisma | PostgreSQL (Neon) | Vercel

- Developed a production grade monorepo LMS with a Next.js 15 App Router frontend and an Express + TypeScript + Prisma backend, deployed on Vercel with a live Neon PostgreSQL database.
- Implemented 5 specialized user roles (Admin, Doctor, TA, Student, Support Agent), full Arabic/English RTL/LTR switching, and a custom design system with glassmorphic UI elements and micro animations.

Aura - Customer Ordering System May 2026
Flask | Python | Full-Stack Web

- Built a full-stack ordering platform (dynamic menu, real time order tracking, admin dashboard) with RESTful Flask routes following MVC and OOP principles.

AI Knowledge & Reasoning Engine Feb 2025
Python | LangChain | FAISS | Hugging Face | PyTorch

- Built a RAG pipeline over multi-document PDF corpora using PyPDFLoader, Hugging Face Sentence Transformers, and FAISS for low latency similarity search, orchestrated with LangChain.
- Applied prompt engineering and iterative testing to improve answer grounding and reduce hallucinated responses.

WORK EXPERIENCE

Information Technology Institute (ITI) Aug 2026 - Sep 2026
Software Testing Program

- Conducting comprehensive software testing procedures to ensure application quality and functionality across multiple projects.
- Collaborating with development teams to identify and resolve defects throughout the software development lifecycle, implementing automated testing solutions.

Route Academy - IT Training Center Jun 2026 - Present
Front-End Development Diploma

- Undertaking hands-on training in HTML, CSS, React.js, Bootstrap, Tailwind, TypeScript, Sass, jQuery, NPM and modern JavaScript (ES6, DOM, BOM, AJAX, Fetch API, OOP).

SyntecxHub Company
UI/UX Design Internship

Jun 3 – Jul 3, 2026

- Designed and developed 4 high-fidelity UI/UX projects during a one month internship, applying user centered design principles and pixel perfect front-end implementation; Created wireframes and prototypes reducing development iteration time by 25% through early user feedback integration.

Decode Labs Company
AI Internship

Jun 1 – Jul 1, 2026

- Worked on applied AI projects during a one month internship, strengthening practical skills in AI development and implementation.

Zidio Development Company
Web Development Training Program

May 2026 - Jul 2026

- Participated in an intensive web development training program, building and deploying full-stack applications using modern frameworks and best practices.
- Collaborated on real world projects to enhance practical skills in frontend and backend development, API integration, and responsive design.

Tips Hindawi Company
Generative AI Internship Program

Dec 2025 – Feb 2026

- Completed an intensive program on generative AI concepts, including LLMs and applied prompt engineering, through hands on implementation exercises.

Saham Al Shamal Eng'g Consultants Co. (SASEC)
Online Training IT Intern

Jul – Aug 2025

- Completed technical training on engineering consultancy processes and systems.

Alexandria Mineral Oils Company (AMOC)
Industrial IT Intern

Sep 2024

- Monitored industrial control systems processing 1000+ data points daily, identifying and resolving 15+ operational issues reducing downtime by 20%; performed data analysis on production metrics, creating automated reports saving 10+ hours weekly in manual data processing.
